

1 July 2020

Dear Residents and Families,

I write to inform you of changes to our COVID-19 precautions. We continue to closely monitor COVID-19 cases as well as communication from our Commonwealth and State Governments. Following the recent outbreak in Melbourne, communication from the NSW Government requires that staff and visitors who have travelled to Melbourne in the previous 14 days be denied entry into our aged care service. Conservatively, noting the upcoming school holiday period, Garden Village has made the following adjustments to our precautions:

- Staff and visitors who have travelled to **Victoria** in the previous 14 days will be denied access to our site.
- All staff and visitors to the aged care service are to wear a face shield or mask at all times. **Please note that face masks can be purchased from reception for a gold coin donation.**

Positively, cases in NSW remain low and there are currently no cases on the Mid North Coast.

As always we appreciate your continued support in keeping our residents safe and if you have any questions please do not hesitate to contact me on 02 6582 8923.

Yours sincerely

Elizabeth Harpley
Acting Chief Executive Officer
