

6 July 2020

Dear Residents and Families

A short note to remind all that when you are visiting the facility the following must occur:

1. All visitors **MUST** present at reception for screening
2. Visitors **MUST** have been immunised against influenza or present an exemption medical certificate
3. Visitors travelling from **Victoria** or had close contact with people from **Victoria** in the past 14 days will be **DENIED** access
4. No more than 2 visitors at any one time
5. Visitors **MUST NOT** wander corridors or go to communal spaces
6. Visitors **MUST wear a mask and practice hand hygiene**
7. Visitors **MUST practice social distancing**

These actions are to protect a vulnerable community, we have tourists at this time from Victoria and given the devastating increase in numbers of infections and the lockdown implementation now is **NOT** the time to become complacent.

Regards

Elizabeth Harpley

Director of Care Services
